
CCIE R&S INTEGRATED TRAINING PROGRAM, COURSE FEES, EXAM DURATION

Cisco certifications are the most sought certifications by any networking aspirants or a fresher that has been just out of college. The expert level certification like Cisco Certified Internetworking Expert or CCIE as it is called holds a prestigious position among the networking professionals. Professionals all over the world train themselves hard to acquire this certification.

Need For Integrated Training

When you aspire on becoming a top-notch networking professional in the industry, an integrated learning environment is the most suited one that you can opt for. Understanding this need of the

aspirants, Networkers Guru came up with their [integrated training program](#), catering to all aspects of a professional need. They have designed the training program keeping in mind the need of any networking professionals, be it freshers in the field or an individual with years of experience under his/her belt opting to take on the certification path.

Networkers Guru's Program

The image shows a classroom or lab environment with several students sitting at desks, working on laptops. In the background, there are server racks. The Networkers Guru logo is in the top left corner, featuring a red stylized 'G' and the text 'Networkers Guru LEADER IN CISCO TRAINING'. A large blue hexagonal callout with a red border is overlaid on the right side of the image, containing the text 'Crack your CCIE exam in first attempt'. A dark blue curved banner at the bottom left of the image contains contact information: a phone icon followed by '+91-97178-69444', a telephone handset icon followed by '+91-99100-62971', and a globe icon followed by 'www.networkersguru.com'.

Networkers Guru's integrated program caters to provide the best environment and facilities for the students. [CCIE R&S](#) is the most opted track for CCIE since it caters towards the basic needs and requirements of the building and maintaining a commercial networking infrastructure. The program comprises of training and lab access for all courses required for one to become a CCIE namely:

- CCNA Routing & Switching
- CCNP Routing & Switching
- CCIE Routing & Switching: Both Written & Labs
- MPLS, BGP

Hence opting for this training program assures that at the end of it, the candidate will have all the necessary comprehensive knowledge required to develop, maintain and troubleshoot any converged network infrastructure.

Each [course](#) is conducted under the guidance and expertise of certified CCIE professional who has worked in the industry for years and on the most updated tools and devices.

Program Structure

As mentioned, the program takes into account to provide the best technical expertise possible and hence is designed to cater the need of any fresher or networking professional who wants to grow in the technology field. The entire program is structured into three formats, and depending

on the candidate's convenience, the same can opt. The details are as listed below:

- **Regular Batch**

Under this program, candidates opt for a regular program of the duration: 6-7 Months, on a weekly basis. This batch is ideal for freshers or for professionals who choose to take a leave to work on their skills.

COURSE FEES: INR 1,00,000.

- **Fast Track Batch**

At times, it isn't possible for the individual to be available for the full duration of 6-7 months, they can opt for this 3-month program. This program is ideal for individuals under these circumstances. Although it's a shorter term program, no compromise is made on the training and labs.

COURSE FEES: INR 1,35,000.

- **Weekend Batch**

Candidates who can't take a leave from their ongoing work can opt for the weekend training curriculum. The course duration is for 30 Weekends and can be completed with ease without disturbing their professional life.

COURSE FEES: INR 1,00,000.
