# Why CCIE Security Integrated Certification is a Viable Career Option for The Students?

[vc\_row][vc\_column][vc\_column\_text]

## Networkers Guru| US | Dubai | Nigeria | UK | Cisco [CCNA](#) [CCNP](#) [CCIE](#) Training Institute

Networking is a huge platform where a student has to learn different things in order to be an expert in it. With the best training and possibly with the use of modern infrastructure Networkers Guru guides every student in the best possible way.

As we all know that courses on networking require a robust training for successful completion. This is completely based on practical learning and Networkers Guru gives the best form of training to all the candidates in every course.

Here we will be talking about [CCIE Security Integrated](#) certification, an enterprise level course dealing with the security technologies.

But parents are in a little dilemma over the choice of this course by their children. They belong to the old school of thoughts and such genre of study is quite unknown to them.

This blog is mainly for the parents who should understand the need and the future prospect of this genre of study

CCIE security integrated certification is a vital part of networking and Networkers Guru is a premium institution for this particular course along with the rest.

## What makes CCIE Security Integrated certification a viable career option for the people?

- **Good command over both basic and advanced concepts of technology-** The course will enhance the knowledge of a candidate in a better way. People who are opting for this course will eventually get to know all the advanced concepts of technology which will help them to grow better at work. Every candidate develops a crystal clear idea about [CCIE certification](#).
- **Additional technologies are also learned-** Not just knowledge on the core subject but a candidate also gets to know a lot about additional technology like Juniper SRX firewall, Checkpoint firewall, NextGen etc. This helps a candidate to work on a diversified platform.
- **Networkers Guru offers grooming and mock interviews for the candidates-** The institute offers grooming and mock interviews for the students in every course. This is a part of their curriculum. Just technical knowledge is not enough for a student to shine in the industry; one has to be very good with communication skills both at the time of interview and also during work.

- 
- **Job with a deserving package-** There is no dearth of job opportunities in this field of study. A CCIE security integrated certified person will get placement in a company with a deserving package. If a person has got a good knowledge of the subject then jobs are there.
  - **Multiple job opportunities-** One can shift to other domain in networking after completion of this course. This is a rare advantage that people hardly find in any other course.

If a candidate really wants to pursue this course as his future then nothing should stop him. Even parents should know that this course has a bright future if the person performs well. So take your decision and make sure to enroll yourself at Networkers Guru for a better training on this innovative program.[/vc\_column\_text][[/vc\_column]][/vc\_row]
